Keywords: Dendrimer G2; malaria; metabolomic; nanocomposite; Protozoa; corrigendum

The authors apologise for errors in the Results section of the paper.

Under the sub-heading ‘Liquid chromatography-mass spectrometry (LC-MS)’ the sentence: “The peaks at 512 and 696 $mz-1$ in the figure represent 5 and 7 repeating units” must be replaced by “The peaks at 512 and 696 $mz-1$ in the figure represent 5 and 7 repeating units”.
