

	PAGE
The effect of varying levels of dietary protein on nitrogen retention in early-weaned calves. By T. R. PRESTON, F. G. WHITELAW, R. D. NDUMBE and EUPHEMIA B. CHARLESON	v
Starch refection: a misnomer. By T. B. MORGAN	vi
The food intake and energy expenditure of some elderly women living alone. By J. V. G. A. DURININ, ELAINE C. BLAKE, MARGARET K. ALLAN and ELIZABETH J. SHAW	vii
Some evidence that a relative dietary excess of carbohydrate is an important aetiological factor in kwashiorkor. By I. MACDONALD	vii
The central nervous system of pigs on low-protein diets. By B. S. PLATT and R. J. C. STEWART	viii
Electroencephalographic and electrocardiographic technique in nutritional studies on laboratory animals. By G. PAMPIGLIONE, R. J. C. STEWART and B. S. PLATT	ix
Pathological changes in the pars anterior of the hypophysis of animals maintained on low-protein diets. By K. O. GODWIN and B. S. PLATT	x
Effect of protein value of the diet on the course of malarial infection (<i>Plasmodium berghei</i>) in rats. By B. S. PLATT, I. S. DEMA and D. S. MILLER	xi
The water-soluble vitamin content of blood serum and milk of the bitch. By D. J. NAISMITH and P. L. PELLETT	xi
The effect of different fats on the retention of nitrogen in the rat. By D. J. NAISMITH and RAHMAT U. QURESHI	xii

FORTHCOMING ISSUE

It is hoped to publish in the next issue of the *Proceedings of The Nutrition Society* reports of symposia on Nutrition and the Elderly (19 March 1960) and Minor Elements in Nutrition (30 April 1960) and abstracts of communications to be presented at the meetings for original communications on 27 February and 21 May 1960.

CONTENTS OF VOLUME 19, No. 1, 1960

(All rights reserved)

SYMPOSIUM PROCEEDINGS

One Hundred and Twenty-sixth Scientific Meeting

NUTRITION AND REPRODUCTION		PAGE
Maternal nutrition in relation to abnormal foetal development. By J. W. MILLEN and D. H. M. WOOLLAM		1
Body stores in human pregnancy and lactation. By A. M. THOMSON and F. E. HYTEN		5
The influence of nutrition on female fertility in some of the large domestic animals. By S. L. HIGNETT		8
Effect of nutrition on androgenic activity and spermatogenesis in mammals. By T. MANN		15
Nutrition and reproduction in insects. By V. B. WIGGLESWORTH		18
Nutrition and reproductive capacity in fish. By AVRIL D. WOODHEAD		23
Nutrition and reproduction in the domestic fowl. By L. G. CHUBB		28
Influence of nutrition on reproduction in laboratory rodents. By ANNIE M. BROWN, MARGARET J. COOK, W. LANE-PETTER, G. PORTER and A. A. TUFFERY		32

One Hundred and Twenty-seventh Scientific Meeting

NUTRITION AT THE CELLULAR LEVEL		
Chairman's introductory remarks. By J. N. DAVIDSON		38
Genetic determination of nutritional requirements. By J. A. ROPER		39
The nutrition of animal cells in vitro. By J. PAUL		45
The effect of vitamin A on tissue structure. By HONOR B. FELL		50
The nutritional regulation of ribonucleic-acid metabolism in the liver cell. By H. N. MUNRO and CATHERINE M. CLARK		55
Nutritional factors in blood-cell formation. By RONALD H. GIRDWOOD		61

One Hundred and Twenty-eighth Scientific Meeting

NUTRITION AND THE EYE		
Anatomy and physiology of the eye from the point of view of its nutrition. By HUGH DAVSON		69
The biochemistry of the eye. By ANTOINETTE PIRIE		73
The crystalline lens in human and experimental malnutrition. By D. S. MCLAREN		78
Personal observations on some metabolic diseases of the eye. By F. C. RODGER		80
Malnutrition and eye disease in Tanganyika. By D. S. MCLAREN		89
Malnutritional keratitis. By C. J. BLUMENTHAL		92
Protein and myopia. By P. A. GARDINER		96
Vitamin B ₁₂ and the eye. By J. M. HEATON		100

ABSTRACTS OF COMMUNICATIONS

One Hundred and Twenty-ninth Scientific Meeting

The effects of intraruminal infusions of acetic, propionic and butyric acids on nitrogen retention in growing heifers. By J. A. F. ROOK, C. C. BALCH and R. C. CAMPLING	i
Metabolic studies on isocaloric submaintenance diets, over a period of weeks. By MARGARET CAREY, K. HODD, HENRIETTA KOERSELMAN, T. PILKINGTON, V. M. ROSENOER, F. MARY SIMMONDS and A. OTAKI	ii
A microbiological method for assessing the nutritional value of proteins. By J. E. FORD	ii
Vitamins A and E in human blood. 1. Levels of vitamin A and carotenoids in British men and women 1948-57. By Z. A. LEITNER, T. MOORE and I. M. SHARMAN	iii
The influence of a meat diet on the retention of nitrogen, phosphorus and calcium in growing kittens. By A. HEULWEN ROBERTS and PATRICIA P. SCOTT	iii
A species difference in the response of the thyroid to the addition of calcium and iodine to a meat diet. By PATRICIA P. SCOTT and M. G. SCOTT	iv
