

Interact Intranet. (2011) Planning and Deploying A Successful Intranet. Everything you need to know about planning, developing and deploying a successful, user centric intranet. Some good stuff in this. I got it free after attending one of their seminars.

I have also benefited from visits to see three law firm intranets over the past couple of years with a group called ILLi. I won't name them in case they wish to keep their intranets to themselves but thank you all.
