**CORRECTION TO “ALGEBRAIC DEFORMATIONS  
OF POLARIZED VARIETIES”, NAGOYA  
MATHEMATICAL JOURNAL,  
VOL. 31, 1968.**

T. MATSUSAKA

There was an obvious error in  $(P_4)$ , p. 193. It should be corrected as follows:

$(P_4)$  When  $Y$  is a  $V$ -divisor, it is contained in  $\mathfrak{X}$  if and only if there is a pair  $(r, s)$  of integers not in  $\mathfrak{M}$  such that  $rY \equiv sX \pmod{\mathfrak{G}_a}$ .
