CORRECTION TO "ALGEBRAIC DEFORMATIONS OF POLARIZED VARIETIES", NAGOYA MATHEMATICAL JOURNAL, VOL. 31, 1968.

T. MATSUSAKA

There was an obvious error in (P_4), p. 193. It should be corrected as follows:

(P_4) When Y is a V-divisor, it is contained in $\mathfrak{X}$ if and only if there is a pair (r, s) of integers not in $\mathfrak{M}$ such that $rY \equiv sX \mod \mathfrak{G}_a$.
