**72nd Annual Conference of the American
Society of Radiologic Technologists**
Albuquerque, NM, USA

This year's Annual Conference provides a forum where medical imaging and radiation therapy professionals can learn and discuss new procedures, trends and technologies in the delivery of quality patient care. As always, education will be a main focus. ASRT offers an impressive schedule of lectures, scientific displays and educational workshops. The theme of the 2000 Annual Conference is 'Old World, New World'. The theme not only reflects the move into the new millennium, but

the technological advances that have drawn on past successes to propel medical imaging and radiation therapy into the future.
