*The Army and Politics  
in Argentina, 1928-1945*

YRIGOYEN TO PERON. *Robert A. Potash.* This volume covers a critical period in which both the Army and the political process underwent significant change. Particular attention is given to the evolution of the Army as an institution, the treatment accorded the armed forces under various governments, the influence of Army officers on policy-making, and the interaction of individual officers with the political authorities, civilian and military. \$8.95

*Politics in Modern Greece*

*Keith R. Legg.* The process of modernization in Greece is unlikely to produce a truly modern political system—this is the conclusion that emerges from this detailed description and analysis of the political process in Greece. The book is based on a wide variety of historical materials, socioanthropological studies, quantitative data, and personal interviews. August. About \$10.00

*Conflict and Consensus  
in Labour's Foreign Policy, 1914-1965*

*Michael R. Gordon.* Why has the British Labour Party suffered from fratricidal struggles over foreign policy throughout its history? This study investigates the reasons behind the recurrent conflicts in the party's ranks. The basic nature of socialist foreign policy is examined, in both theoretical and historical perspective, by way of contrast with traditional British foreign policy. \$8.95
