Fourteenth Functional Endoscopic Sinus Surgery Course and KTP/532 Workshop

April 11–14, 2000

Omagh, Northern Ireland, UK
A two-day course in functional sinus surgery with hands-on nose-sinus endoscopy will instruct the participant with an in-depth account of both morbid and endoscopic anatomy, pathophysiology, diagnosis including imaging techniques and surgical approach with post operative care. Complications and how to prevent them will be discussed in detail.
The course is aided by profuse illustrations, video presentations and live surgery.
The two day KTP/532 workshop aims to instruct the surgeons in both basic concepts and the varied applications in ENT and head and neck surgery including tissue interactions of various lasers. The latest techniques with KTP laser in tonsillectomy, functional endoscopic sinus surgery, UP3 and microlaryngeal surgery are discussed by didactic lectures and video presentations.
Live Tonsillectomy surgery will be performed with KTP/532 laser on several patients. The delegates will have 'hands-on' training with the KTP/532 Laser system with various animal tissue and pig's larynx with micromanipulator.
The course has a limited number of places and these will be allocated on a first come, first served basis.
