> Sydney, Australia
> http://www.lvi2015.org/

Library and Information Technology Association (LITA) Forum
The LITA Forum is the annual gathering of about 300 technology-minded information professionals. It is the conference where technology meets the practicality of daily information operations in archives, libraries, and other information services. The Forum is an ideal place to interact with fellow library technologists. Attendees are working at the cutting edge of library technology and are interested in making connections with technically-inclined colleagues. Librarians can equally learn from conference attendees about the new directions libraries are going, to better understand requests from libraries.
> *November 12–15, 2015*
> Minneapolis, MN, USA
> http://litaforum.org/

7th International Conference on Business Management and Legal Studies (ICBMLS)
ICBMLS provides a great platform for Research Discussions, International Peer Networking, Research Publication in International Journals. Come discuss, collaborate, network and explore Singapore – November 2015 at

ICBMLS

IMCW2015: 6th International Symposium on Information Management in a Changing World

"Information Management in the Big Data Era: For a Better World" being the main theme of the Symposium, IMCW2015 aims to bring together information professionals, data librarians, archivists computer and information scientists, business people and engineers to discuss the implications of Big Data on information management and to contemplate on establishing a sound data infrastructure and finding innovative ways to mine, process, organize and provide access to large amounts of data. As organizers, we thought this is an opportune time for IMCW2015 to review the challenges for information organizations, libraries, archives and museums providing data and information services in the digital age.

>*November 25–27, 2015*
>Guangzhou, China

38th European Conference on Information Retrieval (ECIR)
The annual European Conference on Information Retrieval is the premier
European forum for the presentation of new research results in the field of
Information Retrieval. ECIR provides an opportunity for both young and
established researchers to present research papers reporting new, unpublished,
and innovative research results. ECIR has traditionally had a strong student
focus and papers whose sole or main author is a postgraduate student or
postdoctoral researcher are especially welcome.
