

ERRATUM

Low velocity ion stopping of relevance to the US beam-target program

CLAUDE DEUTSCH AND ROMAIN POPOFF

(This article appeared in Volume 24, Number 3, Pages 421–425)

Please note the correction to the first line below Eq. (5) on page 422:
For M_b arbitrary and $M = 48$ (titanium), in a.m.u. unit.

Please note the correction to line seven below Eq. (6) on page 422:
With quasi-classical electrons may be obtained from Cs

Please note the correction to line eight below Eq. (6) on page 422:
Targets at a few eV, in view of its very low Fermi temperature
