

CD-ROM ORDER FORM –

AUGMENTATION STRATEGIES IN THE TREATMENT OF MAJOR DEPRESSIVE DISORDER

Fax: 212-328-0600

Mail: MBL Communications, Inc.

333 Hudson Street, 7th Floor

New York, NY 10013

E-mail: ks@mbcommunications.com

This Expert Roundtable Supplement is available as an easy-to-use CD-ROM. Just complete this form. This information is offered to the medical community to aid in the rapid and proper dissemination of medical information. The commercial supporter, Bristol-Myers Squibb, has funded 2,000 CD-ROMs via an educational grant for interested readers. For those first 2,000 requesters, a CD-ROM will be provided free of charge.

The interactive CD-ROM contains the text of this Expert Roundtable Supplement in PDF format, as well as the slide library presented in PowerPoint format. The CD-ROM is compatible with both PC/Windows and Mac OS systems: no plug-ins are required.

While the copyright of these slides lies with the journal, the information in the CD-ROM may be used by readers under the "fair use" doctrine. Thus, a use for a proper purpose, such as teaching or lecturing, is encouraged.

Please allow 3 weeks for delivery.
