

# Essential Reading from Cambridge

## **AIDS and HIV in Perspective**

A Guide to Understanding the Virus and Its Consequences

*Barry D. Schoub*

This authoritative introduction offers an accessible up-to-date account of HIV infection and AIDS for a wide audience, that also explores the complex social, legal, and ethical issues surrounding the disease.

1994 288 pp. 45231-7 Hardcover \$65.00  
45874-9 Paper \$19.95

## **AIDS and Contemporary History**

*Edited by Virginia Berridge and Philip Strong*

This timely book explores AIDS as an historic event, analysing both its historic context and its current public policy, cultural, scientific, and medical aspects.

*Cambridge History of Medicine*

1993 296 pp. 41477-6 Hardcover \$54.95

## **AIDS, HIV and Mental Health**

*Michael B. King*

*"King has succeeded in producing a concise and critical volume targeted primarily to professionals in the mental-health field but quite accessible to the layperson as well."*

— Steven Petrow, *The Advocate*

An overview of all information currently available on the psychological effects of AIDS, written in a manner readily accessible to the nonspecialist. Vital for anyone caring for someone stricken with this devastating illness.

*Psychiatry and Medicine Series 1*

1993 207 pp. 45294-5 Hardcover \$39.95  
42356-2 Paper \$19.95

## **Human Cancer**

Epidemiology and Environmental Causes

*John Higginson, Calum S. Muir, and Nubia Munoz*

Provides a global perspective on the epidemiology of cancer and its environmental causes. By summarizing on a cancer-by-cancer basis, geographical, environmental, and ethnic factors, the volume collates a wealth of useful information, which, taken together, provides valuable insights into the causes of cancer and the scope for its control and elimination.

*Cambridge Monographs on Cancer Research*

1992 602 pp. 41288-9 Hardcover \$125.00
