

**P-1235 - EFFECT OF CULTURAL THEMES ON FORMING COTARD'S SYNDROME;  
REPORTING A CASE OF COTARD'S SYNDROME WITH DEPERSONALIZATION AND  
OUT OF BODY EXPERIENCE SYMPTOMS**

A.Ghaffarinejad, F.Estilae

Kerman University of Medical Sciences, Kerman, Iran

**Objective:** Cotard's syndrome is a rare psychiatric syndrome, which is well- known since more than one hundred years. It's core symptom is nihilistic ideation or delusion. In this case report, the effect of culture on forming the symptoms of a female patient with Cotard's syndrome was the matter of concern.

**Method:** A single case with Cotard's syndrome associated with out of body experience and depersonalization and complicated grief was reported. she believed that she was killed by a superstitious creature named " Aal" in Persian folclor.

**Conclusion:** Cultural and superstitious beliefs could effect on forming complex constellation of patients symptoms including Cotard's syndrome. The resolution of symptoms might be step by step.
