

## Ageing towards 21 as a risk factor for Young Adult Suicide in the UK and Ireland – ERRATUM

K. M. Malone, L. Quinlivan, T. Grant and C. C. Kelleher

doi:10.1017/S2045796012000649, Published by Cambridge University Press, 13 November 2012.  
First published online 11 December 2012

In the article by K. M. Malone, L. Quinlivan, T. Grant and C. C. Kelleher published in *Epidemiology and Psychiatric Sciences* (Malone *et al.*, published online 13 November 2012) a citation was listed incorrectly on page 4 of the paper and in the references.

The correct citation in the text is:

However, because of differing suicide rates between jurisdictions (Mok *et al.* 2012), the method of using counts actually un-earthed the age-related factor we identified.

The correct reference is:

**Mok PLH, Kapur N, Windfuhr K, Leyland AH, Appleby L, Platt S, Webb RT** (2012). Trends in national suicide rates for Scotland and for England & Wales, 1960–2008. *British Journal of Psychiatry* **200**, 245–251.

We apologise to the authors of Malone *et al.* and Mok *et al.* 2012, and to the readers for this error.
