

CARDIAC COMPLICATIONS IN CARDIAZOL TREATMENT;  
OBSERVATIONS IN FOUR CASES.\*

By A. DICK, M.B., Ch.B.Glasg., and W. McADAM, M.B., Ch.B.Glasg.

[ABSTRACT.]

THE occurrence of auricular fibrillation in three patients ; notes regarding onset, nature and duration of manifestations.

Electro-cardiographic diagnosis, interpretation of and comparison with organic fibrillation.

The onset of heart-block immediately following a convulsion in another patient. Discussion of subsequent course and treatment.

Comment on the significance of these complications in relation to the safety of convulsive therapies.

Observations on blood-pressure in some of the above cases.
