In the article published earlier this year [1], Theorem 2 on p. 81 should be stated as follows:

THEOREM 2: *The optimal policy is given by*

$$\mu^*(x,c) = \begin{cases} 0 & \text{if } x \le S \\ x - S & \text{if } S < x < S + K \\ K & \text{if } x \ge S + K \end{cases}$$

if $S \ge 0$, and $\mu^*(x,c) = K \wedge x$ if $S < 0$.
