NEW APPLIED PROBABILITY TRUST SERIES OF MONOGRAPHS IN PROBABILITY AND STATISTICS

At their last meeting in March 1980, the Trustees of the Applied Probability Trust decided to launch a new series of monographs in probability and statistics. These will ordinarily be around 100 printed pages in length, and may be of three kinds:

A. historical monographs, including the possible facsimile reproduction of classical works, together with a critical commentary;
B. review monographs on relevant areas of probability and statistics, with special emphasis on applied probability;
C. research monographs in active areas of probability and statistics, again with special emphasis on applied probability.

Longer monographs will also be considered, though only exceptionally. On acceptance of a typescript for publication, the author will be paid £350.

Potential authors should write to the Editor-in-Chief at the Applied Probability Office, Department of Probability and Statistics, The University, Sheffield S3 7RH, U.K. Readers wishing to suggest possible topics or authors for the monograph series are also advised to contact the Editor-in-Chief.

A free set of back volumes

THEORY OF PROBABILITY AND MATHEMATICAL STATISTICS

A cover-to-cover translation into English of Teorija Matematičeskaja Statistika, published by Kiev University and containing papers by mathematicians working throughout the Ukraine. The editor is A. V. Skorohod, and the editorial board includes I. I. Gihman, B. V. Gnedenko and V. S. Koroljuk, all scholars instantly recognizable worldwide for work in probability and statistics. The journal covers a wide range of topics with papers of high quality.

The series starts with the translation of the Russian number 1 published in 1970. Numbers 19, 20, and 21 are the 1980 numbers.

1980 SUBSCRIPTION PRICES: LIST $160.00, AMS MEMBER $80.00.

FOR A LIMITED TIME, NEW 1980 SUBSCRIBERS WILL BE GIVEN NUMBERS 1–18 FREE.

Prepayment is required

Subscription rates

Subscription rates (post free) for the 1980 volume of *Advances* are as follows:

Subscribers in North, Central and South America, and Australia:

US$75.00, $A.66.00, £39·00 for libraries and institutions;
US$25.00, $A.22.00, £13·00 for individuals belonging to a recognised scientific society.

All other subscribers:

£33·00 for libraries and institutions;
£11·00 for individuals belonging to a recognised scientific society.

All enquiries about *Advances*, as well as subscriptions, should be sent to the Executive Editor, Miss M. Hitchcock, Department of Probability and Statistics, The University, Sheffield S3 7RH, England. The price of back numbers varies from volume to volume, and enquiries should be sent to the Executive Editor. Cheques, money orders, etc., should be made out to **Applied Probability;** cheques on U.S., U.K. and Australian banks will be acceptable.

Notes for contributors

Submission of papers.

It is a condition of publication in *Advances in Applied Probability* that papers shall not previously have appeared elsewhere, and will not be reprinted without the written permission of the Trust. It is the general policy of *Advances* not to accept for publication papers which cannot appear in print within 15 months of the date of receipt of the final version. Authors will receive 50 reprints of their papers free, and joint authors a proportional share of this number. Additional reprints will be provided at cost.

Papers should be written in English or French; papers in other languages may be accepted by the Editors, but will appear (subject to the author's agreement) in English or French translation in *Advances*. Scripts should be typewritten, using double spacing, and at least one copy should be on one side of the paper only. Each paper should be accompanied by

(i) a short abstract of approximately 4–10 lines giving a non-mathematical description of the subject matter and results;

(ii) a list of keywords detailing the contents for the purpose of computerised information retrieval.

Authors are advised to consult *The Author's Guide to the Applied Probability Journals* when preparing papers for submission. A copy of this guide may be obtained on application to the Applied Probability Office.

Authors are requested to comply with the following instructions: Authors in Britain, Europe, the Middle East, Africa, North and South America should send three copies of their submissions to the Applied Probability Office in Sheffield. Authors in Australasia and the Far East should send three copies of their submissions to the Editor-in-Chief, Dr J. Gani, in Canberra.

The Editor-in-Chief and the Applied Probability Office are in direct contact by Telex, and full details of the papers submitted either in Sheffield or Canberra are available in both centres.

Alternatively, authors may submit papers to any of the Editors listed on the inside front cover. In this case, two copies of the submission should be sent to the Editor concerned, and one copy, with a copy of the covering letter, should be sent to the Applied Probability Office in Sheffield. Authors overseas are asked to ensure that their submissions are sent by air mail.

Copyright. The copyright of all published papers shall be vested in the Trust. When a paper is accepted for publication, the Trust requests the author(s) to sign a form assigning copyright to the Trust. Failure to do this promptly may delay or prevent publication.

The appearance of the code at the top of the first page of a paper in this journal indicates the Trust's consent that copies of the article may be made for personal or internal use by the copier or his specific clients. This consent is given on the condition, however, that the copier pay the stated per-copy fee through the Copyright Clearance Center, Inc., P.O. Box 765, Schenectady, New York 12301, U.S.A. for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying for general distribution, for advertising for promotional purposes, for creating new collective works, or for resale.
