

THE QUARTERLY JOURNAL OF MATHEMATICS

OXFORD SECOND SERIES

Edited by T. W. CHAUNDY, U. S. HASLAM-JONES, E. C. THOMPSON

VOLUME 14

No. 54

June 1963

CONTENTS

- R. S. Mishra: Solutions of gauge-invariant generalization equations of field theories with asymmetric fundamental tensor
H. Halberstam and R. R. Laxton: On perfect difference sets
C. C. Heyde: Some remarks on the moment problem (I)
C. C. Heyde: Some remarks on the moment problem (II)
P. J. Bushell: On the dependence of an eigenvalue on a parameter
R. W. Cross: Existence theorems for linear equations in an infinity of unknowns
G. M. Yadao: Generating functions for associated Legendre polynomials
O. Taussky and H. Wielandt: On the role of the determinant in semigroups of matrices
G. Higman: The lower central series of a free loop
J. V. Ryff: On subdeterminants of some convex sets of matrices
A. Erdélyi: Note on a paper by Titchmarsh
H. Davenport and D. J. Lewis: Notes on congruences (II)

Quarterly Journal of Mathematics (Oxford Second Series) is published in March, June, September and December at 18s. 6d. net for a single number with an annual subscription (for four numbers) of 65s. post free. Orders may be placed with any bookseller or sent direct to the Publisher.

OXFORD UNIVERSITY PRESS

AMEN HOUSE, WARWICK SQUARE, LONDON, E. C. 4.

PROCEEDINGS

OF THE

EDINBURGH MATHEMATICAL SOCIETY

VOLUME 13 (Series 2)

December 1962

PART 2

- JOHN E. MAXFIELD and HENRYK MINC: On the Matrix Equation $X'X=A$.
G. N. WATSON: A Proof of Kirkman's Hypothesis.
ECKFORD COHEN: An Analogue of a Result of Jacobsthal.
P. H. DIANANDA: A Cyclic Inequality and an Extension of it. II.
C. G. CHEHATA: Embedding Theorems for Groups.
G. EASON: Thermal Stress in Anisotropic Cylinders.
HENRY JACK: An Application of the Addition Theorem for Determinants.
HENRY JACK: An Integral over the Interior of a Simplex.
A. C. AIKEN: Note on a Difference-Product Inequality.
I. D. MACDONALD: On Central Series.
J. BURLAK: A Pair of Dual Integral Equations Occurring in Diffraction Theory.
H. S. M. COXETER: The Abstract Group $G^3, 7, 12$: A Correction.

BOOK REVIEWS.

MATHEMATICAL NOTE.

D. H. PARSONS: Irrotational Flow of a Liquid, with Axial Symmetry.

Series I of the PROCEEDINGS consists of forty-four volumes published from 1886 to 1926.
Series II consists of twelve complete volumes to date.

The PROCEEDINGS are published in parts and issued twice yearly. Four parts complete a volume of approximately 200 pages and the Title Pages and Index are published in Part 4 of each volume.

The prepaid subscription per volume is 60s. (U.S.A. \$10.00) post free. Single parts 15s. (U.S.A. \$2 50) net. Orders, and requests for prices of in-print back numbers, should be addressed to Oliver and Boyd Ltd., Tweeddale Court, 14, High Street, Edinburgh, 1.

PROCEEDINGS OF THE GLASGOW MATHEMATICAL ASSOCIATION

THE *Proceedings* are published in Parts and issued twice yearly in January and July. Four Parts complete a Volume of approximately 200 pages, and the Title Pages and Index are published in Part 4 of each Volume.

The prepaid subscription for each Volume is Sixty Shillings (U.S.A. \$10.00), post free. Single Parts may be supplied at a cost of Fifteen Shillings each (U.S.A. \$2.50), net.

Copies may be ordered direct from the publishers or from any bookseller.

Information for Contributors

While the *Proceedings* are intended primarily for Pure Mathematics, papers on Applied Mathematics will also be accepted. Manuscripts from all parts of the world will be welcomed and given careful consideration.

Manuscripts, preferably typed, should be prepared so as to conform with the practice in current numbers of the *Proceedings*, especially with regard to line illustrations, references, tables, and summaries. The name of the author and the date of the receipt of the manuscript will be printed under the title. Text figures must be suitable for line block reproduction, lettered in pencil, numbered, and separated from the text but allocated clearly to sections of the text.

References should be placed at the end of the paper, arranged and numbered in alphabetical order. In the text, reference numbers should be enclosed in square brackets and underlined, to distinguish them from formula numbers, which should be quoted in round brackets. The following particulars should be given, in the order indicated:

for references to books—*author, title, edition, place of publication, year of publication, page reference*;

for references to articles in periodicals—*author, title of article, short title of periodical, series no. (if any), volume no., year, pagination*.

A proof is supplied once in galley form, together with an Order Form for offprints. Offprints are supplied free to the number of twenty-five; additional copies, if ordered prior to publication, will be supplied, at cost, at the request of the contributor. Excessive corrections may be charged to the author.

Manuscripts should be sent to:
