Knowledge exchange methods in practice:
knowing how to design for older adults – ERRATUM

Lesley J. McIntyre and Ian Ruaraidh Harrison

doi: 10.1017/S1359135516000361, Published by Cambridge
University Press, 21 December 2016.

arq would like to offer our sincere apologies for the following errors: a misspelling of the author's name on the back cover and contents page, which should read 'Ruaraidh'; and the inclusion of the word 'four' instead of the word 'thirty' in the second paragraph under 'purposeful conversation', p.273.
