NUTRASE

ENDO-1,4- β -XYLANASE

ONE ENZYME,
A WORLD OF BENEFITS

ENZYME FOR MORE PROFIT

- Improved growth and FCR
- More breast meat
- Dry litter

UNIQUE CHARACTERISTICS

- Optimal activity at neutral pH
- Less sensitive for xylanase inhibitors
- Highly stable during pelletizing and digestion
- Break-down of soluble and insoluble arabinoxylans

PROVEN EFFICIENCY

- Effective in wheat, barley, rye, corn and grain by-products
- Only one enzyme needed for a broad range of monogastric animals

We are a research-oriented company specialised in the production and marketing of ingredients for feed and food. We work through a network of local distributors. Our goal is to build up a durable relationship with our partners, in an open co-operation. Achterstenhoek 5 - 2275 Lille - Belgium - info@nutrex.be - tel +32 14 88 31 11 - fax +32 14 88 31 01

HENDRIX GENETICS

FOUNDERS OF FUTURE GENERATIONS

Hendrix Genetics is a global multi-species animal genetics company investing in technology, people and progress to deliver sustainable value to business partners, employees and society.

Hendrix Genetics has 4 divisions: ISA, the layer breeding division; Hybrid the turkey breeding division; Hypor the pig breeding division and SFPA, the poultry distribution division. Hendrix Genetics Research & Technology Centre supports the breeding divisions of the company with up to date expertise and technologies that are shared between the genetic selection programs of the various species.

Hendrix Genetics has around 1000 employees with a further 500 working in joint ventures. This Hendrix Genetics team combines 50 fully or partially owned companies in 22 countries around the world.

WE GROW. YOU WIN.

Fort Dodge Animal Health becomes part of Pfizer Animal Health

Our new merger does more than just help us grow. It also helps you win. Pfizer Poultry Health now offers you more customer service, technology and poultry health expertise than ever before. Count on us to be your trusted supplier of vaccines, pharmaceuticals and devices—with knowledgeable technical service and customer support associates around the world who truly understand poultry health and production. All backed by the highest commitment to research and development. To learn more about how you'll win, visit us online at www.pfizerpoultryhealth.com.

Wyeth is now a part of Pfizer. The merger of local Wyeth and Pfizer entities may be pending in various jurisdictions and is subject to completion of various local legal and regulatory obligations. Accordingly, changes will not become effective outside of the U.S. and Puerto Rico until the relevant in-country Go-Live date. Until that time, Pfizer and Wyeth must continue to operate as two separate companies. All content in this message is subject to works council and/or union consultations and other legal requirements.
