Volume 124 Supplement 2002: Parasites in Marine Systems

Parasites and marine invasions

M. E. TORCHIN, K. D. LAFFERTY *and* A. M. KURIS

There were some errors published within this paper for which the publisher would like to offer their apologies both to their readers and to the authors.

Page S141, Table 1. All studies for *Littorina saxatilis* were conducted in the native range, thus $n=8$ and $i=0$. Other values for i were not available and should be blank.

Page S143, paragraph 2, line 5: delete *L. saxatilis*.
