- Plus, **ADVANCED** prescriber-based medication effectiveness reporting features available only to this exclusive network of healthcare professionals
- On-demand, patient-specific drug efficacy and tolerability reports that will enable you to evaluate and track medication effectiveness for all of your patients
- De-identified Akario network reports that allow you to compare treatment effectiveness with your patients versus that of the entire prescriber network
- In-depth data on how CNS drugs are being used in clinical practice
- Obtain real-time clinical decision support tools to avoid drug/drug interactions, drug allergies, and adverse events
- Help your patients save \$\$\$ with formulary compliance features
- Streamline your office workflow and increase productivity by:
 - Avoiding pharmacy callbacks for renewal requests
 - Renewing multiple patients' medications with one click
- Access patient medication history across healthcare providers

To see if you qualify to participate in the network and learn more about joining this groundbreaking initiative, contact us at info@akario.com or call **1-212-328-0800 x211**

Free offer is only available to prescribing psychiatric and mental health practitioners with high speed Internet access (cable, DSL, or T1). Akario reserves the right to cancel memberships if the provider/member is not an active network participant.
