

## CORRIGENDUM

# Ampharetidae (Annelida: Polychaeta) from Japanese waters. Part IV. Miscellaneous genera – CORRIGENDUM

MICHAEL REUSCHER, DIETER FIEGE AND MINORU IMAJIMA

doi: <http://dx.doi.org/10.1017/S0025315415000545>. Published by Cambridge University Press: 20 May 2015

**Keywords:** Ampharetidae, *Amage*, *Amphisamytha*, *Glyphanostomum*, *Lysippe*, *Melinnopsis*, *Orochi*, *Samytha*, new genus, new species, corrigendum

The species names of the four species *Amage auricula*, *Ampharete falcata*, *Auchenoplax crinita* and *Lysippe labiata* were incorrectly identified as *Amage abiater*, *Ampharete abiate*, *Auchenoplax abiate* and *Lysippe abiate*, respectively in [Table 1](#). Please see below for the correct version of the table.
