PROCEEDINGS

OF

THE ROYAL SOCIETY OF EDINBURGH

Section A (Mathematical and Physical Sciences)

VOL. LXI

1941-1943

PUBLISHED BY
OLIVER & BOYD
EDINBURGH: TWEEDDALE COURT
LONDON: 98 GREAT RUSSELL STREET, W.C. 1
1943

https://doi.org/10.1017/S0080454100006208 Published online by Cambridge University Press

PRINTED IN GREAT BRITAIN BY NEILL AND CO., LTD., EDINBURGH.

CONTENTS

PAGE

*1. On Hamilton's Principal Function in Quantum Mechanics. By E. T. Whittaker, F.R.S., *P*.R.S.E. Issued separately February 18, 1941, . . . 1

*2. The Van der Waals Force between a Proton and a Hydrogen Atom. By C. A. Coulson, M.A., Ph.D., University College, Dundee. *Communicated by* Professor E. T. Copson, M.A., D.Sc. (With One Figure.) Issued separately February 18, 1941, ... 20

*3. Reciprocity. Part V: Reciprocal Spinor Functions. By Klaus Fuchs, D.Sc., Carnegie Research Fellow, University of Edinburgh. *Communicated by* Professor Max Born, F.R.S. Issued separately February 17, 1941, . . 26

*4. On an Elementary Solution of a Partial Differential Equation of Parabolic Type. Part I. By E. T. Copson, University College, Dundee, in the University of St Andrews. Issued separately April 17, 1941, . . . 37

*5. On an Elementary Solution of a Partial Differential Equation of Parabolic Type. Part II: The Nature of the Singularity. By E. T. Copson, University College, Dundee, in the University of St Andrews. Issued separately April 17, 1941, ... 54

*6. Generating Functions of Certain Continuous Orthogonal Systems. By A. Erdélyi, Mathematical Institute, University of Edinburgh. *Communicated by* Professor E. T. Whittaker, F.R.S., *P*.R.S.E. Issued separately August 21, 1941, ... 61

7. The Clear-Day Barometric Curve at Ben Nevis. By T. R. Tannahill, M.A., B.Sc., University Observatory, Glasgow. *Communicated by* Dr R. A. Robb. Issued separately August 21, 1941, ... 71

8. Reciprocity. Part VI: The Wave Function of the Meson. By Kathleen Sarginson. *Communicated by* Professor Max Born, F.R.S. Issued separately September 18, 1941, ... 77

9. On a Certain Variation of the Distributive Law for a Commutative Algebraic Field. By Abraham Robinsohn, Hebrew University of Jerusalem. *Communicated by* Dr I. M. H. Etherington. Issued separately September 18, 1941, ... 93

10. A New Way of Measuring the Velocity of Light. By R. A. Houstoun, M.A., Ph.D., D.Sc., Natural Philosophy Department, University of Glasgow. (With Five Text-figures.) Issued separately September 18, 1941, . . 102

*11. Quantum Theory of the Chemical Bond. By C. A. Coulson, University College, Dundee. *An Address delivered before the Society on February* 3, 1941. (With Eighteen Text-figures.) Issued separately December 16, 1941, ... 115

*12. Some Remarks occasioned by the Geometry of the Veronese Surface. By W. L. Edge, Mathematical Institute, University of Edinburgh. Issued separately December 16, 1941, ... 140

https://doi.org/10.1017/S0080454100006208 Published online by Cambridge University Press

PAGE

13. Some Disputed Questions in the Philosophy of the Physical Sciences. By E. T. Whittaker, F.R.S., *P.*R.S.E. (*Address of the President at the Annual Statutory Meeting, October* 27, 1941.) Issued separately January 26, 1942, . 160

*14. Further Investigations in Factor Estimation. By D. N. Lawley, B.A., Moray House, University of Edinburgh. *Communicated by* Professor Godfrey H. Thomson. Issued separately January 26, 1942, ... 176

*15. On the Estimation of Statistical Parameters. By A. C. Aitken, D.Sc., F.R.S., Mathematical Institute, University of Edinburgh, and H. Silverstone, Ph.D., New Zealand. Issued separately April 2, 1942, ... 186

16. Simultaneous Linear Partial Differential Equations of the Second Order. By E. L. Ince. Issued separately August 5, 1942, ... 195

17. Axiomatic Treatment of Kinematical Relativity. By G. C. McVittie, Ph.D., King's College, The University, Bristol. *Communicated by* The President. Issued separately November 16, 1942, ... 210

18. Heat Flow in the Region bounded Internally by a Circular Cylinder. By J. C. Jaeger, University of Tasmania. *Communicated by* Professor H. S. Carslaw, M.A., Sc.D., D.Sc., LL.D. (With Two Text-figures.) Issued separately November 18, 1942, ... 223

19. A Short Table of $\int_0^\infty \frac{e^{-xu^2}}{J_0^2(u)+Y_0^2(u)}\,\frac{du}{u}$. By J. C. Jaeger and Martha Clarke, University of Tasmania. *Communicated by* Professor H. S. Carslaw, M.A., Sc.D., D.Sc., LL.D. Issued separately November 20, 1942, . . . 229

20. Aristotle, Newton, Einstein. By E. T. Whittaker, F.R.S., *P.*R.S.E. (*Address of the President at the Annual Statutory Meeting, October* 26, 1942.) Issued separately October 27, 1942, ... 231

*21. Sylvester's Unravelment of a Ternary Quartic. By W. L. Edge, Mathematical Institute, University of Edinburgh. Issued separately December 18, 1942, ... 247

22. Some Applications of Marcel Riesz's Integrals of Fractional Order. By E. T. Copson, University College, Dundee, in the University of St Andrews. Issued separately March 29, 1943, ... 260

23. On Problems connected with Item Selection and Test Construction. By D. N. Lawley, Moray House, University of Edinburgh. *Communicated by* Professor Godfrey H. Thomson. Issued separately May 4, 1943, . . 273

24. On the Equation of Motion of a Free Particle in the Expanding Universe of Kinematical Relativity. By E. A. Milne, F.R.S., Oxford. *Communicated by* The President. Issued separately May 4, 1943, ... 288

25. Axiomatic Treatment of Kinematical Relativity: A Reply to Dr G. C. McVittie. By G. J. Whitrow, M.A., D.Phil., Christ Church, Oxford. *Communicated by* The President. Issued separately May 4, 1943, . . 298

26. The Monomial Expansion of Determinantal Symmetric Functions. By A. C. Aitken, D.Sc., F.R.S., Mathematical Institute, University of Edinburgh. Issued separately May 4, 1943, ... 300

* The thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for grants towards the costs of illustrations, tables, etc., in these papers, and towards similar costs in the papers in *Proceedings*, vol. lx, 1939–40, Nos. 25, 26, and 27.

https://doi.org/10.1017/S0080454100006208 Published online by Cambridge University Press

For fine pencil sketches, and line and wash sketches, the whitest base available should be used. The lightest tones or lines should be a little stronger than is desired in the reproduction, and the heavier tones strengthened in proportion, so that in reproduction the whole scale of tones may be adjusted to bring the base into its proper relationship. Otherwise a very light pencil line or a weak wash will not reproduce as a stronger tone than the base, but will merge with it and be lost. Fine pencil lines should be uniform throughout.

Drawings and photographic prints should be kept as clean as possible.

When the illustrations are to form plates, a scheme for the arrangement of the figures in Roy. 4to plates for the *Transactions*, and in Super Roy. 8vo for the *Proceedings*, must be given, and the figures numbered (and, when necessary, lettered).

Space available for figures and lettering in *Transactions*, $9\frac{3}{4}'' \times 7\frac{3}{4}''$.
" " " " *Proceedings*, $7\frac{3}{4}'' \times 5''$.

A proof of each paper will be sent to the author, whose address should be given on the MS. The cost of corrections made in the proof should not exceed 5 per cent. of the printers' charges for the setting of each paper. The author may be charged with any excess.

The proof must, if possible, be returned within one week, addressed to *The Secretary, Royal Society of Edinburgh, 22 George Street, Edinburgh, 2*, and *not to the printer*. To prevent delay, an author residing abroad should appoint someone residing in this country to correct the proof.

As soon as a *Transactions* paper, or the sheet in which the last part of a *Proceedings* paper appears, is ready for press, copies or reprints, in covers, bearing the title of the paper and the name of the author, are printed off and placed on sale. The date of such separate publication is printed on each paper.

Authors of papers will receive fifty reprints free, if they so desire; but in view of the strict necessity for economy in paper and printing, their attention is directed to the desirability of requesting only twenty-five gratis copies, where this number will meet their needs. Authors may have a reasonable number of additional reprints at a fixed scale of prices, which will (if paper is available) be furnished by the printer, who will charge them with the cost. To prevent disappointment, especially if the paper contains plates, the author should, as soon as possible, notify to the Secretary the number of additional reprints required.

To facilitate the compilation of indexes, and to secure that due attention to the important points in a paper shall be given in General Catalogues of Scientific Literature and in Abstracts published by periodicals, each author is requested to return to the Secretary, together with the proof of his paper, a brief index (on the model given below) of the points in it which he considers new or important. These indexes will be edited by the Secretary and incorporated in separate index slips issued with each part of the *Transactions* and *Proceedings*.

MODEL INDEX

Schäfer, E. A.—On the Existence within the Liver Cells of Channels which can be directly injected from the Blood-vessels. Proc. Roy. Soc. Edin., XXIV, 1902, 65-69.

Cells, Liver,—Intra-cellular Canaliculi in.
E. A. Schäfer. Proc. Roy. Soc. Edin., XXIV, 1902, 65-69.

Liver,—Injection within Cells of.

NO. PAGE

XX. Aristotle, Newton, Einstein. By E. T. WHITTAKER, F.R.S., *P*.R.S.E. (*Address of the President at the Annual Statutory Meeting, October* 26, 1942) . . 231

(*Issued separately October* 27, 1942.)

XXI. Sylvester's Unravelment of a Ternary Quartic. By W. L. EDGE, Mathematical Institute, University of Edinburgh . 247

(*Issued separately December* 18, 1942.)

XXII. Some Applications of Marcel Riesz's Integrals of Fractional Order. By E. T. COPSON, University College, Dundee, in the University of St Andrews 260

(*Issued separately March* 29, 1943.)

XXIII. On Problems connected with Item Selection and Test Construction. By D. N. LAWLEY, Moray House, University of Edinburgh. *Communicated by* Professor GODFREY H. THOMSON 273

(*Issued separately May* 4, 1943.)

XXIV. On the Equation of Motion of a Free Particle in the Expanding Universe of Kinematical Relativity. By E. A. MILNE, F.R.S., Oxford. *Communicated by* THE PRESIDENT 288

(*Issued separately May* 4, 1943.)

XXV. Axiomatic Treatment of Kinematical Relativity: A Reply to Dr G. C. McVittie. By G. J. WHITROW, M.A., D.Phil., Christ Church, Oxford. *Communicated by* THE PRESIDENT 298

(*Issued separately May* 4, 1943.)

XXVI. The Monomial Expansion of Determinantal Symmetric Functions. By A. C. AITKEN, D.Sc., F.R.S., Mathematical Institute, University of Edinburgh . . . 300

(*Issued separately May* 4, 1943.)

Index to Volume 311

The Papers published in this part of the PROCEEDINGS *may be had separately, on application to the Publishers, at the following Prices:—*

No. XVI	Price 1s. 3d.	No. XXII	Price 1s. 0d.
No. XVII	„ 1s. 0d.	No. XXIII	„ 1s. 3d.
No. XVIII	„ 0s. 6d.	No. XXIV	„ 1s. 0d.
No. XIX	„ 0s. 6d.	No. XXV	„ 0s. 6d.
No. XX	„ 1s. 3d.	No. XXVI	„ 1s. 0d.
No. XXI	„ 1s. 0d.
