

VOLUME III

INDEX OF SUBJECTS AND AUTHORS

Only main topics are listed, and reference is given to the first page of each paper in which they are discussed

- Abbot, U. K., 181
Abplanalp, H., 210
Affinity in *Saccharomyces*, 196
Allometric relations, changes in, by selection in *Drosophila*, 169
Anaemia, sex-linked, in mouse, 238, 248
Asmundson, V. S., 181
Aspergillus nidulans
 genetic structure of *paba* 1 region in, 69
 mutagenic action of nitrous acid on, 303
 suppressors linked to suppressed mutant in, 331
Auerbach, C., 444, 461
- Barker, J. S. F., 388
Beale, G. H., 24
Bell, A. E., 282
Bowman, J. C., 333
Bray, D. F., 282
Burnet, B., 405
- Canalization of development time in *Drosophila*, 364
Cattanach, B. M., 487
Cattle, chromosomal analysis of, 167
Chromosomal analysis of cattle, by tissue culture, 167
Chromosome
 transfer and withdrawal in *Escherichia coli*, 251
 transfer in *Escherichia coli*, mathematical treatment, 273
Clark, G., 167
Coelopa frigida, recessive autosomal lethals in, 405
Conjugation in *Escherichia coli*, 251
Correlated responses to selection for egg number in poultry, 210
Crossing over within short intervals, in *Neurospora*, 315
Crossley, R., 167
- Dee, J., 11
de Haan, P. G., 251
- Desborough, S., 196
Development rate, selection for, in *Drosophila*, 90, 364
Drosophila melanogaster
 effect of inbreeding and selection on fitness in, 110
 general interval in population of, 388
 selection
 disruptive, for development time in, 364
 for development rate in, 90
 for relative size of body parts in, 169
 recurrent, for bristle number in, 333
 stabilizing, for development time in, 364
 translocations in spermatogonia of, 467
 visible mutations in, 461
Drosophila simulans, generation interval in population of, 388
- Edwards, R. G., 428
Efficiency of food utilization, in large and small mice, 51
Environment
 aseptic synthetic diets for *Drosophila*, 90
 control of, during selection in *Tribolium*, 282
 nutritional stress during selection in poultry, 210
Erythrocytes of anaemic mice, 238
Escherichia coli
 chromosome transfer in, 251, 273
 conjugation in, 251
 valine-resistant mutants of, 448
- Falconer, D. S., 248, 444
Finney, D. J., 417
Fitness, effect of inbreeding and selection on, in *Drosophila*, 110
Fowler, R. E., 51
Fraser, F. C., 383
- Gene frequency, random variation in, 1
Gene replication, after UV-induced mutagenesis in *Ustilago*, 472

- Generation interval, estimation of, in *Drosophila* spp., 388
- Genetic drift, 1
- Genetic parameters of allometric relationships, in *Drosophila*, 169
- Genetic variance, selection for changes in, in *Drosophila*, 364
- Gibson, I., 24
- Glover, S. W., 448
- Grewal, M. S., 226, 238
- Gross, J. D., 251
- Growth
 - of normal and 'scaleless' chickens, 181
 - of XO females in mouse, 487
- Grüneberg, H., 157
- Haploid intersexes in *Mormoniella*, 424
- Heritability, realized, of development rate in *Drosophila*, 90
- Heterosis, negative, of litter size in mice, 333
- Heterozygotes, effect of recessive lethal, on viability in *Coelopa*, 405
- Holliday, R., 472
- Immunology, tests of incompatibility proteins in *Oenothera*, 352
- 'Inactive-X' hypothesis, supporting evidence from mouse, 487
- Inbred strain, mouse, genetic divergence of sublimes, 226
- Inbreeding, effect on fitness in *Drosophila*, 110
- Incompatibility due to pollen proteins in *Oenothera*, 352
- Interaction, genotype-environment, in *Tribolium*, 282
- Interference
 - in *Neurospora*, discussion of, 315
 - negative, in *Aspergillus*, 69
- Intersexes, haploid, in *Mormoniella*, 424
- Irradiation, test for sex-linked lethals after, in mice, 444
- Isaacson, J. H., 248, 444
- James, J. W., 1
- Kadam, K. M., 139
- Karyotype of cattle, 167
- King, S. C., 282
- Latter, B. D. H., 110
- Lethals, recessive autosomal, in *Coelopa*, 405
- Lewis, D., 352
- Lindegren, C. C., 196
- Linkage
 - between suppressors and suppressed mutants, in *Aspergillus*, 331
 - of biochemical mutants in *Saccharomyces*, 196
 - of 'sex-linked anaemia' in mouse, 248
 - of valine-resistant mutants in *Escherichia coli*, 448
 - on sex chromosome of mouse, 444
- Luig, N. H., 331
- Mäkinen, Y. L. A., 352
- Mate-killer (μ) particles, in *Paramecium*, 24, 328
- Meiosis, in *Neurospora*, 315
- Metagons in *Paramecium*
 - and mate-killer particles, 24
 - hypothesis of division of, 328
- Mormoniella vitripennis*, haploid intersexes in, 424
- Mouse
 - development of 'shaker-with-syndactylism', 157
 - efficiency of food utilization in selected strains, 51
 - energy expenditure of selected strains, 51
 - genetic divergence of sublimes in C57BL strain, 226
 - genetics of 'sex-linked anaemia', 248
 - growth and viability of XO females, 487
 - haematology of 'sex-linked anaemia', 238
 - muscular anatomy of
 - 'Oligosyndactylism', 139
 - 'syndactylism', 139
 - musculature of limbs of normal, 139
 - mutant
 - 'Oligosyndactylism', dominant digit fusion, 139
 - 'shaker-with-syndactylism', recessive digit fusion, 157
 - 'shrivelled', dominant lens degeneration, 383
 - 'syndactylism', recessive digit fusion, 139
 - physiology of large and small strains, 51
 - pituitary endocrines in large and small strains, 428
 - recurrent selection for litter size in, 333
 - sex-linked lethal test in, 444
- Mutants
 - biochemical, in *Aspergillus*, 69, 303, 331
 - colour, in *Aspergillus*, 303
 - incompatibility, in *Oenothera*, 352

Mutants—*continued*

- 'Oligosyndactylism', muscular anatomy of, in mouse, 139
- recessive autosomal lethals, in *Coelopa*, 405
- 'scaleless', recessive feather lack, in chickens, 181
- 'sex-linked anaemia', recessive, in mouse, 238, 248
- 'shaker-with-syndactylism', recessive digit fusion, in mouse, 157
- 'shrivelled', dominant lens degeneration, in mouse, 383
- 'syndactylism', muscular anatomy of, in mouse, 139
- valine-resistant, in *Escherichia coli*, 448

Mutation

- implications of subline divergence in mouse, 226
 - induced by
 - CB 1506, in *Drosophila*, 461, 467
 - nitrous acid, in *Aspergillus*, 303
 - UV, in *Ustilago*, 472
 - X-rays, in mouse, 248
 - in relation to intersexuality, in *Moroniella*, 424
 - test for sex-linked lethals in mouse, 444
 - visible-to-lethal ratio, in *Drosophila*, 461
- Mu particles in *Paramecium*, 24, 328
- Myxomycete, see *Physarum polycephalum*

Neurospora crassa, multiple exchanges in short intervals in, 315

Nutritional studies on 'scaleless' chickens, 181

Oenothera organensis, immunological tests of incompatibility in, 352

Paramecium aurelia

- hypothesis of metagon division in, 328
- mate-killer (mu) particles in, 24
- Pathology of recessive lethals, in *Coelopa*, 405
- Perkins, D. P., 315

Physarum polycephalum

- culture methods for, 11
- genetic analysis of, 11
- life-cycle of, 11
- recombination in, 11

Pituitary endocrines and selection for size, in mice, 428

Population

- control, for selection lines in poultry, 1
- Tribolium*, 282

Population—*continued*

- effective size of, 1
 - generation interval in, of *Drosophila* spp., 388
- Poultry
- control populations, 1
 - nutritional studies on 'scaleless' mutant, 181
 - selection for egg number in, 210
- Proteins, causing incompatibility in *Oenothera*, 352
- Prout, T., 364

Random mating control populations, 1

Recombination in

- Aspergillus*, 69
- Physarum*, 11
- Reeve, E. C. R., 24, 328
- Robertson, A., 110
- Robertson, F. W., 169
- Ross, G. J. S., 328

Saccharomyces, preferential segregation in, 196

Sampling, effect of, on variation in gene frequency, 1

Sang, J. H., 90

Saul, G. B., 424

Schabtach, G., 383

Segregation, preferential, in *Saccharomyces*, 196

Selection

- comparison of three methods of, 417
 - disruptive, for development time in *Drosophila*, 364
 - effect on food utilization in mouse, 51
 - effect on pituitary in large and small mice, 428
 - effect on reproductive fitness in *Drosophila*, 110
 - for development rate in *Drosophila*, 90, 364
 - for pupa weight in *Tribolium*, 282
 - for allometric relationships in *Drosophila*, 169
 - gains under independent culling, tandem and index, 417
 - modification of limits to, for egg number in poultry, 210
 - recurrent
 - for abdominal bristles in *Drosophila*, 333
 - for litter size in mice, 333
 - stabilizing, for development time in *Drosophila*, 364
 - under environmental stress in poultry, 210
- Shortridge, K. R., 181

- Shult, E. E., 196
 Siddiqi, O. H., 69, 303
 Skeletal abnormalities of 'shaker-with-syn-
 dactylism' mutant, in mouse, 157
 Symonds, N., 273
- Tissue-culture techniques, for chromosomal
 analysis in cattle, 167
 Translocations induced by CB 1506 in *Droso-
 phila*, 467
Tribolium castaneum, selection for pupa
 weight in, 282
- Ustilago maydis*, mutation and replication in,
 472
- Viability
 of heterozygous recessive lethals in *Coelopa*,
 405
 of selected lines in *Drosophila*, 364
 of XO females in mice, 487
- Watson, W. A. F., 467
- Weight
 of pupae, selection for, in *Tribolium*, 282
 relationship between endocrines and, in
 mouse, 428
