

General Notes

THE NINTH BRITISH ACADEMIC CONFERENCE IN OTOLARYNGOLOGY

MANCHESTER 9-14 JULY 1995

Master: Mr Andrew W. Morrison, F.R.C.S.

The next Conference will be held in the University of Manchester Institute of Science and Technology. Distinguished invited international contributors will present and discuss recent developments in otolaryngology, head and neck surgery. Main topic sessions will include:

Sensorineural deafness	Controversies in Head and Neck Surgery
Otitis media with effusion	Skull base surgery
Controversies in Otology	ORS main topic session
Chronic rhinosinusitis	Facial plastic surgery
Controversies in Rhinology	Phoniatrics and voice surgery
Carcinoma of the larynx	Facial palsy
Paediatric Update 1995	

Instructional Sessions will be held in small seminar groups, and there will be six Mini-Symposia:

Cochlear and osseointegrated implants	Molecular biology and ENT
Allergy	Education and training in ENT
Swallowing, aspiration and dysphagia	Electrophysiology in ENT

There will be temporal bone dissection demonstrations, a continuous programme of video films, and both Scientific and Trade Exhibitions, together with a full social programme for delegates and spouses. Further details may be obtained from the Conference Secretary.

Ms Barbara Komoniewska,
British Association of Otolaryngologists,
The Royal College of Surgeons of England,
35-43 Lincoln's Inn Fields,
London WC2A 3PN,
England.
Tel: 071-404 8373 Fax: 071-405 0318

AN ENDOSCOPIC APPROACH TO RHINOSINUSITIS

THE INSTITUTE OF LARYNGOLOGY AND OTOTOLOGY

6-8 OCTOBER 1994

With the participation of: Professor Heinz Stammberger
University ENT Hospital Graz, Austria

Course organizers: V. J. Lund and I. S. Mackay

Further information:
Administration,
The Institute of Laryngology and Otology,
330/332 Gray's Inn Road,
London WC1X 8EE.
Tel. 071-837 8855 ext. 4292; Fax 071-837 9279.

UNIVERSITY OF PITTSBURGH MEDICAL CENTRE

SIXTH INTERNATIONAL SYMPOSIUM ON RECENT ADVANCES IN OTITIS MEDIA

JUNE 4–8, 1995

MARRIOTT'S HARBOUR BEACH RESORT, FORT LAUDERDALE, FLORIDA.

Sponsored by: University of Pittsburgh Medical Centre, Centre for Continuing Education in the Health Sciences,
and Children's Hospital of Pittsburgh, Department of Paediatric Otolaryngology.

Chairman: David J. Lim, M.D.

For more information:
University of Pittsburgh,
Department of Conference Management,
Attention: Trish Smith,
Nese-Barkan Building, Suite 512,
3811 O'Hara Street,
Pittsburgh, PA 15213,
Telephone: (412) 647-8126
Fax: (412) 647-8222.

DEPARTMENT OF OTOLARYNGOLOGY, EDINBURGH

A REVISION COURSE IN OTOLARYNGOLOGY will be held in the Seminar Room, Royal Infirmary, Edinburgh,
from Monday September 26th to Friday September 30th 1994, inclusive.

The Course, which is intended for those preparing for postgraduate examinations, will cover all aspects of modern
otolaryngological theory and practice.

Lectures will be given by senior members of staff of the department.

Course fee: £300.

Course organizer: Dr. A. I. G. Kerr.

Further particulars and application forms from:

Mrs. A. J. Pryde,
Unit Secretary,
Department of Otolaryngology,
City Hospital,
Greenbank Drive,
Edinburgh EH10 5SB
Tel: 031 447 1001.

ARE YOU A SUBSCRIBER TO THE J.L.O.?

TEN good reasons why you should:

Each issue contains 40 per cent more material.

Main Articles, Case Reports and Short Communications from all over the world.

Quarterly Book Review Service.

Selected Abstract Service each month.

Period between acceptance and publication cut to six months or less.

Subscribers receive all supplements produced in that year.

Every 10 years, complete index issue published—included in the subscription (next issue will appear at the end of 2002).

Reduced subscription rates for those in training (Registrars/Residents/Interns).

Subscription normally tax deductible. (Those in training should submit a certificate from the Head of the Department
giving details of their appointment; those who qualify must supply their *home* address for mailing direct.)

The J.L.O. has now been published for more than a century and remains excellent value for money—so why not have your
own individual copy and give yourself everyday access!

Instructions to Authors

Review Articles. Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognised authority on the topic and have carried out work of their own in the relevant field.

Historical Articles. Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

Letters to the Editor. This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

'Mini-papers', such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

Pathology. Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bimonthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

Radiology. Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bimonthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

Short Communications. This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'**Silence in Court**'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. *Two* sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and *last* pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 0483 451874.
13. Manuscripts with tables only may be retransmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.

Historical Article

Ear dysplasia after Mondini: *P. D. Phelps* 461

Main Articles

CO₂ laser repair of the facial nerve—an experimental study in the rat: *J. C. Dort, M. Wolfensberger, H. Felix* 466

Day-case adenoidectomy, parental opinions and concerns: *V. Callanan, R. Capper, P. Gurr, D. L. Baldwin* 470
