¹psychiatry, Hôpital militaire Mohamed V, Rabat, Morocco

Maimonide is a rabbin jewish physician of the 12e century; under the rule of the Almohade dynasty;a moroccan family that ruled morocco and algeria and tunisia and spain and portugal at that time.Maimonide was the physician of Almohads;then was sent to damascus to treat Saladin th sultan of the Ayoubite dynasty and his son who was actually suffering from asthma.

his manuscript the treatise of asthma is a full and globalised description of the psychosomatics of astma and maybe the first.
