

W06-01 - **PSYCHIATRY DURING PREGNANCY**

V. Passov¹, C. Friedman², L. Passov¹, J. Alt³

¹*Psychiatry, Mayo Clinic,* ²*Psychiatry, University of Pittsburgh Medical Center, Rochester, MN,*

³*Psychiatry, University of Wisconsin Hospital and Clinics, Madison, WI, USA*

1. Psychotropic medications and use of other treatment modalities for major psychiatric disorders in pregnancy. Victoria Passov, M.D.
2. Chemical dependency issues in pregnancy and treatment modalities currently available. Catherine Friedman, M.D.
3. Developmental outcomes on children born to mothers with psychiatric illness: complications in children of mothers who received treatment for their psychiatric conditions during pregnancy, as well as developmental and psychological consequences in kids born to untreated mothers will be discussed. Leo Passov, M.D.
4. Psychology of reproductive loss and guidelines for helping families cope with the trauma of a miscarriage or stillbirth. We will discuss what makes reproductive loss unique and the physical and psychological sequelae that women experience after the loss of a pregnancy. Jennifer Alt, M.D.
