

INDEX OF AUTHORS

Abe, M.	469	Iriki, I.	469	Pereira, S. M.	493
Åkesson, B.	501	Jackson, A. A.	417	Picou, D. I. M.	417
Apte, S. V.	663	Jägerstad, M.	501	Radcliffe, J. D.	483
Axelsson, J.	501	Kathoke, S.	663	Rea, H. M.	589
Baker, S. J.	493	Kawai, T.	469	Reeds, P. J.	417
Bannister, D. W.	547	Kondoh, K.	469	Ridley, J. L.	451
Begum, A.	493	Laws, L.	441	Robinson, M. F.	579, 589, 639
Bienfet, V.	425	Ledward, D. A.	631	Sambrook, I. E.	515
Bines, J. A.	567	Lengele, L.	425	Seakins, A.	417
Bitman, J.	615	Lewis, D.	463	Shibui, H.	469
Blaxter, K. L.	659	Lomba, F.	425	Snow, P. C.	589
Brun, A.	501	Low, A. G.	515	Sohail, M. A.	463
Burton, C. E.	579	Morant, S. V.	451	Spence, C. A.	647
Care, A. D.	431	Murgatroyd, P. R.	557	Spreadbury, D.	601
Casey, C. E.	639	Murray, A. B.	627	Stewart, R. D. H.	589
Chauvaux, G.	425	Murray, M. B.	627	Sutton, J. D.	451
Cole, D. J. A.	463	Murray, M. J.	627	Swaminathan, R.	431
Cole, T. J.	557	Murray, N. J.	627	Teller, E.	425
Dauncey, M. J.	557	Narasinga Rao, B. S.	663	Thomson, C. D.	579, 589
Davey, A. W. F.	567	Neale, R. J.	631	Webster, A. J. F.	483
Fehling, C.	501	Partridge, L. G.	515, 527, 539	Weyant, J. R.	615
Fox, J.	431	Patrick, J.	417	Whitehead, C. C.	547
Friend, G. M.	589	Payne, E.	441	Wood, D. L.	615
Hansen-Smith, F. M.	647			Wrenn, T. R.	615
Hazell, T.	631				

FORTHCOMING PAPERS

The next issue of the *British Journal of Nutrition* will appear in July 1978. It is hoped to publish in it the following papers:

Papers of direct relevance to CLINICAL AND HUMAN NUTRITION

- Haematological studies on vegans. By T. A. B. SANDERS, F. R. ELLIS and J. W. T. DICKERSON
 Quantitative selenium metabolism in normal New Zealand women. By R. D. H. STEWART, NORA M. GRIFFITHS, CHRISTINE D. THOMSON and MARION F. ROBINSON
 Diets-induced changes in voluntary ethanol consumption and ethanol metabolism in the rat. By LEENA PEKKANEN, K. ERIKSSON and MARIA-LIISA SHIVONEN
 The estimation of whole-body zinc and Zn turnover in rheumatoid and osteoarthritis using ⁶⁵Zn tracer. By A. C. KENNEDY, R. G. BESSENT, P. DAVIS and P. M. G. REYNOLDS

Papers on GENERAL NUTRITION

- Influence of starches from different sources on protein utilization in rats. By C. NAGESWARA RAO and B. S. NARASINGA RAO
 Adaptations in the calcium and phosphorus metabolism of sheep in response to an intravenous infusion of calcium. By G. D. BRATHWAITE
 An evaluation of total lysine as a predictor of lysine status in protein concentrates for growing pigs. By E. S. BATTERHAM
 Inter-species differences in the response of ruminant to a barley-rich diet, with special reference to the production of branched-chain fatty acids. By W. R. H. DUNCAN and G. A. GARTON
 The effect of dietary energy source on nitrogen metabolism in the rumen of sheep. By N. W. OFFER, R. F. E. AXFORD and R. A. EVANS
 Comparative feeding and nutrition in captive non-human primates. By G. J. KING
 The effects on chicks of dietary fibre from different sources: a growth factor in wheat bran. By S. N. HEDGE, B. A. ROLLS, A. TURVEY and MARIE E. COATES
 Behaviour of solute and particle markers in the stomach of sheep given a concentrate diet. By G. J. FAICNEY and D. A. GRIFFITHS
 2-aminoethylphosphonic acid as an indicator of *Tetrahymena pyriformis* W growth in protein quality evaluation assay. By JULIA MACIEJEWICZ-RYS and ANNA M. ANTONIEWICZ
 Gastric secretion in suckling pigs and early weaned pigs given a dry cow's milk formula *ad lib*. By J. A. DECUYPERE, R. BOSSUYT and H. K. HENDERICKX
 Studies on lipid digestion in the pre-ruminant calf. 3. The action of salivary lipase on milk fat in the abomasum. By J. D. EDWARDS-WEBB and S. Y. THOMPSON
 Lysosomal stability, superoxide dismutase and zinc deficiency in regenerating rat liver. By I. E. DREOSTI and I. R. RECORD
 The absorption and retention of fluoride by rats fed diets incorporating five types of fluoride-containing particulate materials produced during the smelting of aluminium. By D. A. WRIGHT and A. THOMPSON
 Transfer of urea from the blood to the rumen of sheep. By P. M. KENNEDY and L. P. MILLIGAN

The British Journal of Nutrition

Volume 39 No. 3 May 1978

CONTENTS

Papers of direct relevance to CLINICAL AND HUMAN NUTRITION

Total body water in malnutrition: the possible role of energy intake. By J. PATRICK, P. J. REEDS, A. A. JACKSON, A. SEAKINS and D. I. M. PICOU	417-424
Studies in iron supplementation of preschool children. By SHEILA M. PEREIRA, ALMAS BEGUM and S. J. BAKER	493-499
A human calorimeter for the direct and indirect measurement of 24 h energy expenditure. By M. J. DAUNCEY, P. R. MURGATROYD and T. J. COLE	557-566
On supplementing the selenium intake of New Zealanders. 1. Short experiments with large doses of selenite or selenomethionine. By CHRISTINE D. THOMSON, CATHERINE E. BURTON and MARION F. ROBINSON	579-587
On supplementing the selenium intake of New Zealanders. 2. Prolonged metabolic experiment with daily supplements of selenomethionine, selenite and fish. By MARION F. ROBINSON, HEATHER M. REA, GAYLENE M. FRIEND, R. D. H. STEWART, P. C. SNOW and CHRISTINE D. THOMSON	589-600
The effect of iron status of Nigerian mothers on that of their infants at birth and 6 months, and on the concentration of Fe in breast milk. By M. J. MURRAY, ANNE B. MURRAY, N. J. MURRAY and MEGAN B. MURRAY	627-630
Iron availability from meat. By T. HAZELL, D. A. LIDWARD and R. J. NEALE	631-638
Copper, manganese, zinc, nickel, cadmium and lead in human foetal tissues. By CLARE L. CASEY and MARION F. ROBINSON	639-646

Papers on GENERAL NUTRITION

Calcium digestibility in cows as influenced by the excess of alkaline ions over stable acid ions in their diets. By F. LOMBA, G. CHAUVAUX, E. TELLER, L. JENGELE and V. BIENEET	425-429
The use of a Thiry-Vella loop of jejunum to study the intestinal absorption of calcium and inorganic phosphate in the conscious pig. By J. FOX, A. D. CARE and R. SWAMINATHAN	431-439
Tissue enzyme levels as indices of protein status in sheep. By E. PAYNE and L. LAWS	441-449
A model for the estimation of volatile fatty acid production in the rumen in non-steady-state conditions. By S. V. MORANT, J. L. RIDLEY and J. D. SUTTON	451-462
Amino acid requirements of the breeding sow: the dietary lysine requirement during pregnancy. By M. A. SOHAIL, D. J. A. COLE and D. LEWIS	463-468
Effects of liquid feeding of concentrate from a pail on the growth and on the digestibility of the diet in young calves. By M. ABE, H. SHIBUI, T. IRIKI, K. KONDOH and T. KAWAI	469-482
Sex, body composition and the regulation of food intake during growth in the Zucker rat. By J. D. RADCLIFFE and A. J. F. WEBSTER	483-492
Effects of vitamin B ₁₂ deficiency on lipid metabolism of the rat liver and nervous system. By C. FEHLING, MARGARETHA JÄGERSTAD, B. ÅKESSON, J. AXELSSON and A. BRUN	501-513
Studies on digestion and absorption in the intestines of growing pigs. 2. Measurements of the flow of dry matter, ash and water. By A. G. LOW, I. G. PARTRIDGE and I. E. SAMBROOK	515-526
Studies on digestion and absorption in the intestines of growing pigs. 3. Net movements of mineral nutrients in the digestive tract. By I. G. PARTRIDGE	527-537
Studies on digestion and absorption in the intestines of growing pigs. 4. Effects of dietary cellulose and sodium levels on mineral absorption. By I. G. PARTRIDGE	539-545
Blood pyruvate carboxylase (EC 6.4.1.1) activity as a criterion of biotin status in chickens and turkeys. By C. C. WHITEHEAD and D. W. BANNISTER	547-556
Metabolic changes associated with intake by cows of complete diets containing straw and concentrates in different proportions. By J. A. BINES and A. M. F. DAVEY	567-578
A study of the protein and amino acid requirements of the growing New Zealand White rabbit with emphasis on lysine and the sulphur-containing amino acids. By D. SPREADBURY	601-613
Necessity of vitamin B ₁₂ for growth of rats fed on an odd- or even-carbon-number fat. By J. BITMAN, JOAN R. WEYANT, D. L. WOOD and T. R. WRENN	615-626
Comparison of the chemical and biochemical composition of thirteen muscles of the rat after dietary protein restriction. By C. A. SPENCE and F. M. HANSEN-SMITH	647-658
The effect of simulated altitude on the heat increment of feed in sheep. By K. L. BLAXLER	659-664

SHORT PAPER

Mono ferrous acid citrate (FeC ₄ O ₇ H ₂ O) as an iron fortificant. By B. S. NARASINGA RAO, SOONITA KATHOKE and S. V. APTI	663-665
