GENERALIZED HYPERGEOMETRIC SERIES

By W. N. BAILEY. 6*s*. 6*d*. *net*.

The primary object of this volume is to collect the special results obtained in the numerous papers on the generalized hypergeometric series written since the publication in 1923 of Professor G. H. Hardy's *A Chapter from Ramanujan's Note-book. Cambridge Tracts in Mathematics, No.* 32.

INEQUALITIES

By G. H. HARDY, J. E. LITTLEWOOD and G. PÓLYA.

16*s*. *net*.

The first six chapters describe the inequalities, such as Hölder's, which are of daily use in analysis; the remaining four form an introduction to certain regions of analysis in which inequalities play a central part.
