

150th Anniversary

Geological Magazine

Editors

Mark Allen, University of Durham, UK
Graham E. Budd, University of Uppsala, Sweden
Philip Leat, British Antarctic Survey, UK
Andy Whitham, CASP, University of Cambridge, UK

Geological Magazine, established in 1864, is one of the oldest and best-known periodicals in the Earth Sciences. Its worldwide circulation, broad scope and high production values keep the journal at the forefront of the field. It publishes original papers, review articles, rapid communications and discussions about all aspects of the geosciences. It covers petrology, geochemistry, palaeontology, sedimentology, stratigraphy, structural geology, geophysics, and geomorphology, and it includes contributions on volcanology, marine geology, glaciology, palaeoclimatology, palaeoceanography, geochronology, biostratigraphy, geohazards and Earth history, providing a niche for interdisciplinary papers on regional geology and Earth history.

Earth and Environmental Science Transactions of The Royal Society of Edinburgh

Marketed and distributed for The Royal Society of
Edinburgh

Editor-in-Chief

P. M. Bishop, University of Glasgow, UK

Earth and Environmental Science Transactions (formerly *Transactions of the Royal Society of Edinburgh: Earth Sciences*) is a general earth sciences journal publishing a comprehensive selection of substantial peer-reviewed research papers, reviews and short communications of international standard across the broad spectrum of earth and environmental geosciences. The journal prides itself on the quality of its graphics and photographic reproduction. The Editors are keen to encourage interdisciplinary papers and *Transactions* also publishes occasional special symposia and invited volumes of specific interest.

Cover Image: November 2007 storm surge eroding the western Netherlands coastal dunes near Bergen aan Zee. During the surge event, the foredune was forced back almost 10 m. This revealed a thick sedimentary archive showing evidence of Holocene coastal processes and events. Photo by: Marcel Bakker, TNO - Geological Survey of the Netherlands.
